

## A Deadly Arrangement

(Continued From First Page.)

(b) Why are fifteen Republican Senators still in office two years and a half after the inauguration of a Democratic President?

(c) Is it true that Republican Senators have used their influence with a Democratic President to retain said Senators?

(d) Has the negro Postmaster at Fayetteville been turned out?

(e) Why did the Democratic Senate confirm the appointment of the negro United States Consul appointed by Grover Cleveland? Didn't Ransom vote for their confirmation? Has he denied it? Was he afraid the President would refuse to let him control the patronage of this State unless he supported his appointments and policy?

A negro, Chas. J. Taylor, was appointed Recorder of the District of Columbia.

AGAINST THE BITTER PLOT of its citizens, at a salary of \$18,000 per annum, and confirmed by a Democratic Senate while hundreds of thousands of the best Democratic workers of this and other States were insulted and ignored, and hundreds of others, glad to obtain insignificant positions in the Department at Washington and in the Revenue service of the Government.

The Washington Post, an administration paper, stated that this same negro Recorder, J. Taylor, was

EXERCISED WHITE WOMEN holding subordinate positions under him by demanding that they submit themselves to his penitence and be dismissed from office, and demanded to know why his resignation was not required by a Democratic administration.

Have these things been done. Have these changes been made by the Democratic administration? And if not, why not? It is expected to make political capital of the Freed Douglas resolution episode?

What has Mr. Cleveland left the Democrats to do on the color line? Anglo-saxon supremacy is a mighty political slogan, but will not the many negroes remaining in the Democratic service of the Government, under a Democratic administration, the appointment and confirmation of negro Consuls, the retention of the negro postmaster at Fayetteville and the appointment and retention in the service of the negro Taylor at Washington.

PROVE A TATL HANDICAP to the color line argument and relate the leaders to the principal issue now before the people, to wit: Gold, or gold and silver?

9th. Has Ransom resigned his membership of the National Democratic Committee since he betrayed his people by voting with the gold sherman against the further coinage of silver?

10th. Will not ex-Senator Ransom continue to

ROSE THE "DEMOCRATIC MACHINE" in North Carolina? If you think not, please state the basis of your opinion.

11th. Was not Ransom's vote against Cleveland bought with patronage by Grover Cleveland who is hand and glove with capitalists in Wall street?

12th. In co-opting Congress by withholding patronage, by issuing his infamous letter to the Democrats threatening with loss of position if they failed to support his administration, and to discontinue the money of the constitution, and by sending his cabinet junketing over the country at the

EXPENSE OF THE TAXPAYERS, to attack their views and to jeopardize their welfare, has not Grover Cleveland shown himself a tyrant and has not centralization, heretofore denounced by the Democratic party, reached its zenith under this so-called Democratic administration?

13th. Does not Senator Morgan declare that the gold standard law caused the issue of \$100,000,000 of bonds which were sold at 104 1/2 when they were worth 120, involving the loss to taxpayers of the country of more than \$20,000,000?

14th. Has not this bond deal of Cleveland been denounced as infamous throughout the country? Was it not infamous? Was it not done in the

INTEREST OF BONDBOLDERS, capitalists, and gold monometallism? How can it be defended?

15th. This is the richest and most powerful country on the globe. Why did Mr. Cleveland give the Morgan-Rothschild syndicate, in that bond transaction, an option on any further bond issue of this government until October, 1897? Has the credit of the republic sunk so low under a Democratic administration that it must, in order to sell its bonds, pay a way by way of granting an option to New York and London bankers? If not, it is not clear that there is some corrupt, concealed motive behind that option?

16th. What hope is there that the Democratic party will be purged of its corruption, shermanism and Ransomism?

If you entertain such hope, please state the foundation for the same?

17th. What hope is there in the Democratic party for free, unlimited and independent coinage of silver? Please give me the grounds of such hope if you entertain it.

18th. Has not the Democratic party in State after State, declared for the gold standard, and has not a large part of the party and its press in North Carolina rebelled against the silver resolutions lately adopted by the Democratic State executive committee?

19th. Why has not the Democratic party of North Carolina, if it is true to the people, and not merely to a goldbug machine, in State convention assembled, protested against, denounced and repudiated the treachery and methods of Cleveland and Ransom, and demanded the ex-Senator's resignation from the national committee?

20th. Will not Mr. Ransom continue his grip on the "Democratic" in North Carolina? And if the legislature should be Democratic in 1896, would it not return Ransom to the United States Senate?

21st. What scandal has been uncovered in a Republican administration, not barring Credit Mobilier, Delano, Babcock, Star Route, Whiskey Rings, &c., that equaled or at least surpassed that of the gold scandal of the late Democratic Congress?

22nd. Grant concentrated the United States army at Washington to give the Presidency to Mr. Hayes and the Republican party. But has not Cleveland given his army of office-holders "orders" to help him deliver the prosperity of the people and the destiny of the republic into the hands of American and British goldbugs?

23rd. Are men's party stix fixed by what they say, or by what they do? If a man claiming to be a Democrat votes the gold bug song of John Sherman, votes for what Sherman has voted, and stands where the Republican party has stood against the free coinage of silver, what is he but a Republican? If he is not a Republican, what is the badge of Republicanism?

I agree with a great Democratic journal of North Carolina, which on June 12th, 1895, used these words in an editorial:

"Whenever a Democrat declares that he is for a single gold standard, he is simply declaring that he has severed his connection with the Democratic party. Gold bug doctrine is Republicanism, true and simple. The Republican party is in possession of the ever watched over and cherished it during its growth to full maturity."

## Says the Atlanta Constitution: "Those who believe in Republican doctrine cannot be Democrats."

CANNOT BE DEMOCRATS.

and those who believe in Democratic doctrine cannot be Republicans. Those who accept and endorse the Republican act of denunciation with all its consequences cannot be called Democrats. Those who accept and endorse the Democratic act of denunciation with all its consequences cannot be called Republicans.

"That the people now have the singular spectacle of men high in office burying their heads deep in the bosom of Republicanism and leaving their hind legs kicking and flourishing about in the Democratic camp."

For years one of the principal arguments of Democrats against the ascendancy of the Republican party was the "infernal revenue system." Senator Vance ridiculed and denounced revenue officers as "red-legged grasshoppers." The Democratic party of this State was pledged to the abolition of the infernal tax at least to a mitigation of its hardships.

I have not heard of anything being done to abolish the system, and as to whether there has been any decrease in seizures, illegal arrests &c., and prosecutions on shadow and insubstantial evidence, the people are to be heard from, especially the hundreds of our citizens dragged before the federal courts during the past two years and more.

Have the people of North Carolina become less law abiding than in the past? How is it that Revenue officers have doubled and trebled in value since the incoming of a Democratic administration? Is it true as I have seen it suggested by the highest authority, that Democratic officials have striven to the law, forgotten the promises of the party and persecuted the people in a mad scramble for fees? It seems that the Democratic "grasshoppers" are quite active, and that many of them have been metamorphosed into gold bugs.

GROVER CLEVELAND. I regard Grover Cleveland as the man who has done more to Americanize the Democratic party than any other political conditions. A traitor to his people, a violator of the constitution, a coward in the execution of the law, a doctrine, a bungler, if not worse, in the Hawaiian matter, a pigmy Statesman born of chance, whose statures are called by his friends and supporters, broad-mindedness, purity and patriotism. This Benedict Arnold of English gold. This autocrat, this Americanizer of the Democratic party, spurred the Democratic platform of 1892 and kicked the Democratic Congress into adopting the most of his policies, and he placed the Democratic party on the necks of the American people, sets his opinions and methods against those of Jefferson and Jackson and Lincoln.

CLEVELAND AND CENTRALIZATION. Touching the tyranny and autocracy and centralizing methods of Grover Cleveland, the following extracts will show how he has placed the Democratic party on the necks of the American people, sets his opinions and methods against those of Jefferson and Jackson and Lincoln.

"What is this Administration talk? Does it mean that the people's servant, their hired man, Mr. Cleveland, is now assuming to have more power than even the Constitution conferred on really great men like Washington and Jefferson and Jackson and Lincoln?"

"When was ever this man from Buffalo cherished some sort of an idea that he is the people, and that the battle of 1860, and the fiercer struggle of 1892, was all over the country, and that he has some sort of a notion that the control of the House and the Senate was not in the people's hands?"

A man elected by the same votes that elected our State Governor, and who is now calling around him a cabinet of other hired men, setting himself and these subordinates up as an Administration!

To do what? To dictate to our other servants? This is the administration that we are hearing about? It is the influence that is seducing our Congressmen from the honest path they were elected to carry, and with promises of offices by which they may hope to reach the Administration hopes to please its Wall street friends and satisfy the Eastern plutocrats?

TOWARDS CENTRALIZATION. Even Democrats are getting to act as if they were Democrats. The administration is now assuming to have more power than even the Constitution conferred on really great men like Washington and Jefferson and Jackson and Lincoln.

Even Democrats are getting to act as if they were Democrats. The administration is now assuming to have more power than even the Constitution conferred on really great men like Washington and Jefferson and Jackson and Lincoln.

## THE SITUATION IN KENTUCKY.

(Continued From First Page.)

The Political Enemy Begins to See the Handwriting on the Wall.

POPS WILL GAIN 40,000.

According to Good Democratic Authority

"The Hon. H. H. Hall will give the People a Chance—Tom Pettit, the Former Advisor of the Kentucky Congressional Delegation.

When a political enemy begins to make concessions and admissions, it is a sure sign that he sees a chance of victory for the other side. And when he sees that chance, it is pretty certain that the chance is good for the defeat of his party.

Here is some interesting matter from the Washington Post:

"I came down yesterday from Rock Enon Springs on a flying visit," said ex-Journal Clerk Harry Smith to a Post reporter last evening, "and shall return on Saturday."

"I found in my mail an interesting letter from a prominent Democratic member of the Kentucky legislature, who was asking me to look up the Journal entries of certain votes in the House on the silver bill on the Fifty-first Congress, he makes some observations on Kentucky politics and the outlook for the coming year."

"The silver bill, which I think is entitled to consideration, as well as publication, though I am not at liberty to mention publicly his name. He dovetails, so to speak, so nicely into the line of remark made by the member from Kentucky, who is asking me to look up the Journal entries of certain votes in the House on the silver bill on the Fifty-first Congress, he makes some observations on Kentucky politics and the outlook for the coming year."

"The silver bill, which I think is entitled to consideration, as well as publication, though I am not at liberty to mention publicly his name. ## Trillman at Concord.

(Continued From First Page.)

I am such a rock thrower I am not satisfied unless I have some one to throw at. I am not inclined to shy a few rocks at your Senator, (to Butler.) (Cheers.)

What are the functions of money? Money is simply a medium of exchange. It took the place of barter. Man invents money as a convenience. They took gold and silver because they were the most valuable commodities. For long time they swapped them without coming by simply weighing them. Coinage was merely intended to facilitate exchange, and it is impossible to get silver coined at all because it is forbidden by law.

LAW MADE THE GOLD DOLLAR worth 100 cents, and silver worth 50 cents. Carlsile's statement is school boy talk. He says that the gold dollar is worth as much as silver or paper. Gold is money merely because the law says so. Silver bullion can not be used because of the law. There is a law of political economy that supply and demand govern prices. The gold dollar is worth 100 cents, and silver worth 50 cents. Carlsile's statement is school boy talk. He says that the gold dollar is worth as much as silver or paper.
